

Fetal Bovine Serum (FBS) European Origin

100% European, 100% Responsible

Sourced, Processed, and Distributed in EU

At Biowest, we are committed to delivering top-quality products while adhering to strict ethical, environmental, and regulatory standards. Our European-sourced Fetal Bovine Serum (FBS) is a prime example of this dedication.

1. Responsible European Sourcing Guaranteed traceability:

Our FBS is sourced from carefully selected European suppliers, ensuring full transparency, rigorous welfare standards, and a minimized carbon footprint.

2. Processing & Bottling in Europe Regulatory compliance:

Every step of processing adheres to stringent EU regulations. Decades of expertise, advanced technology, and rigorous quality checks guarantee a safe, consistent product.

3. Efficient Local Distribution

An efficient European network preserves product integrity and supports local economies, reflecting our dedication to sustainability and responsible supply.
